

60-culture PSF Sample

- Subsistence type
- agro-pastoralists
 - horticulturalists
 - ▲ hunter-gatherers
 - ◆ intensive agriculturalists
 - ▣ other subsistence combinations
 - * pastoralists
 - ◊ primarily hunter-gatherers

Testing theories of 3PP

- Pre-registered hypothesis tests on socioecological variation.
- Socio-ecological predictor variables from Ringen et al. using the SCCS
 - We additionally include societies from PSF not included in SCCS

Novel phylogenetic methods reveal that resource-use intensification drives the evolution of “complex” societies
